CIRCULAR

Sub.: Human Resource Management System - regarding.

Services Department with the help of the NIC has got a web based cadre management system developed. The system has been hosted on an NIC server. The cadre management of DASS/Stenographic Cadre till now was being carried out manually. Manual system had its obvious limitations and problems.

To obviate various difficulties faced in the cadre management, the web based cadre management system has been launched so that data is updated on real time basis to facilitate efficient retrieval of information analysis and correct decision making. Human Resource Management System intends to reduce paper work, bring efficiency and ensure transparency in cadre management decisions.

The new system envisages that information of each employee, in the format enclosed, is uploaded on the website. As such, a nodal officer, not below the rank of Joint Secretary be nominated to function as liaison officer and coordinate between Services Department/NIC, as the case may be, for early updation of data on website. The details of the nodal officer (name, designation, contact number & email id) may be forwarded to the undersigned forthwith.

Further, in order to facilitate updation and familiarize nodal officers of the department concerned with the functions of the website and updation of data, a training programme (as per schedule enclosed) has been scheduled in the Computer Lab of UTCS Department. The training is mandatory. The nodal officer along with support staff, if required, may be directed to attend the training. Further, it is intimated that forenoon schedule will commence at 10.00 AM and afternoon schedule will commence at 02.00 PM, as such, the officer/official may also be directed to attend the training on time.
