Whether Filed appeal with CIC	Directions/Order
Yes	<ul style="list-style-type: none"> Date of Hearing : 15.07.2014 Date of Decision : 28.07.2014 Decision: Heard the submissions made by the respondent authority in the above two appeals.

The appellant is not present. The respondent authority submitted that the appellant, Mr. Manish Aggarwal, has filed at least 20 RTI applications on the same subject, mostly relating to the same school from different angles. Complete information was given to the present RTI application which was also recorded by the First Appellate Authority on 08.04.2013. After having received all the information, the appellant filed 2nd appeal, in which he had stated that he wanted information for each and every point, specifically and para-wise with due application of mind. The appellant filed complaint against the illegal encroachment of the DAV Public School, which is now the matter pending before the Delhi High Court. The Commission observes that it is a case of repeated misuse of RTI Act by the appellant resulting in the harassment of Public Authority. PIO(Act-I) of the respondent authority submitted that the appellant is filing several RTI applications both at the Education Headquarters at Delhi Secretariat and at the different Education Districts of Delhi, seeking the same information.

The PIOs representing the Public Authority are directed to verify whether the RTI applications filed by the appellant earlier were on the same subject matter and whether the same were answered already by the PIOs. If it is so, then the PIO can straightaway reject the repetition of the RTI application on the same subject, unless the applicant has sought any new information. The RTI questions/requests for information pertaining to the same institution from different angles will definitely have a harassing effect on the educational institution and on the PIO and hence the PIO is expected to ascertain whether any larger public interest is involved in answering the questions. If there is no public interest and the questions are harassing in nature, the same can be rejected. The Commission also advises the appellant not to resort to repetition of RTI questions which does not reflect a balanced state of mind and also causes enormous wastage of public time supposed to be used for public interest by the Public Authorities. The Commission also directs the Public Authority to give a comprehensive but brief report of the present appellant's RTI questions, the responses to the same given by the PIO/FAA/CIC, put up this report in the official website of the Public Authority and exhibit the same, at a conspicuous place in the office premises of the respondent authority.

With the above observations, the Commission comes to the conclusion that the appellant has been furnished with all the information by the respondent authority in both the appeals and hence the above two appeals are **dismissed**.

Yes	<ul style="list-style-type: none"> Date of Hearing : 28.05.2015 Date of Decision : 03.06.2015 Decision: The appellant is not present. The Public Authority made their submissions. The respondent officer submitted that the appellant has been furnished with the relevant information. The appellant is fighting against the DAV Public School, which is one of the best schools in Delhi, on the ground of encroachment of DDA land. The respondent authority have already made correspondence with the DDA, which has asked the Department to indicate the alternative arrangements made to the students of the school who will be disturbed due to demolition of the school encroachment. The department had replied to the DDA that they can give admission to the disturbed students in the Government school near to the DAV Public School. In the meanwhile, the DAV Public School had gone to the High Court and obtained the stay order against the demolition move. The appellant has also lodged a complaint against the DDE, Ms. Suroj Bala, seeking her prosecution, and the same was disposed of by the court.

The respondent authority further submitted that the appellant, who is operating along with some group, is continuously filing complaints against the school and the Education Department by way of notice under 80 CPC, followed by the petitions in courts of law. They also developed a practice of filing RTI applications seeking information, action taken on the complaints, etc. The respondent authority suspects that the appellant is associated with a group who are engaged in extortion of money from the schools, if they have committed any irregularity. Ultimately, their complaints/petitions reach up to the High Court, as the group is headed by an Advocate who is practicing in the High Court. The respondent officers also submitted that they are being harassed and frustrated because they have been compelled to divert all their attention to the appellant's RTI applications, petitions, etc, thereby depriving them from their regular duties. They requested the Commission to curb the misuse of RTI, harassment of education department and extortion attempts by some anti-social elements.

Having heard the submissions and perused the record, the Commission admonishes the appellant for misuse of RTI Act and cautions him not to harm the larger interests of students who are studying in the said DAV Public School, by raising frivolous complaints and RTI applications. The Commission, also directs the respondent authority to prepare a comprehensive note on the RTI applications, first and second appeals by the appellant and his group and the resultant action and upload that note in the official website of the Education department, mark a copy to the appellant and use that note to reject the repetitive RTI applications referring to that note including the police report
