New Delhi

Subject: Partnership with Education Department to set up SeedBank in all Govt Schools in Delhi NCR.

**Respected Sir**

Greetings from WePlant India!

WePlant is a voluntary organization committed to end Malnutrition and Hunger. We achieve our goal by planting fruit trees in public places and thus making fruits available and accessible to the poorest of the poor who most need them but can't afford them. We want more trees to be planted every day than the number of trees cut every day.

WePlant has initiated a campaign to **save a million mango seeds this summer** from Delhi. Our mission is to plant a million mango trees in and around NCT of Delhi that will completely change the flora and fauna and make fruit available and accessible for the poor. Students could also save neem, jamun and other seeds of any fruits deposit in SeedBanks.

We request you to kindly give an order encouraging all Eco clubs in Govt schools to establish SeedBanks, where students will be oriented to save every seed possible and plant and nurture them in creative recycled pots and ultimately plant them in public places during the monsoon.

Your support to this cause will go a long way in making our capital state the first biodiverse state.

Sincere Regards, On behalf of WePlant India Team,
