CIRCULAR

Sub: Involving various sports academies / clubs / individual trainers into coaching of student players in various sports in Government schools.

The main aim of education is the 'holistic' development of the child. Each child has the potential to excel in one or the other field. Some of the children, apart from academics, may do very well in other spheres of life. As educators, it is our duty to locate that latent capacity and provide it with congenial atmosphere and abundance of opportunities to grow to its fullest strength.

This objective of all round growth can be achieved only if the child is given plenty of exposure to areas like sports and games and imparting proper training thereto so that he/she can explore and realize his/her innate inclination and abilities. It is a proven fact that once a child gets proper training, it not only improves the playing ability of the child but also brings inner confidence in him/her which leaves a charismatic effect on his/her overall personality.

Moreover, imparting of proper training would give a child the right perspective to see the world around and allow them to participate in various national and international tournaments with utmost gusto and competitiveness.

With these ideas, the Directorate of Education had earlier launched a scheme which was circulated vide circular dated 21.01.2016 wherein opportunity was given to interested private academies / clubs / individual trainers to impart training in various games in the schools of Dte. of Education.

After receiving applications from interested academies / clubs / individual trainers, HoS of the concerned schools allotted to the academies / clubs / individual trainers were informed vide circular dated 23.06.2016 and accordingly letters were issued to the concerned academies / clubs / individual trainers, thereafter.

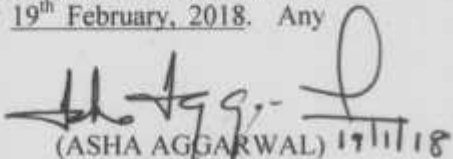

In order to improve the operations and functionality of the scheme as well as to make the scheme more inclusive, the Directorate has decided to invite fresh applications as detailed in 'Annexure-I', apart from the academies / clubs / individual trainers which are already 'functional' as detailed in Annexure-II, to impart training to students in the following games:
