"HAPPINESS CURRICULUM"**

Interested organizations NGOs/Foundations/ Universities/ Schools/Individuals/Teachers etc. are required to submit already developed curriculum/ideas/thoughts with the Directorate of Education. Education has to serve a larger moral and societal purpose and cannot be looked at in isolation from the needs of the society.

The primary purpose of education has to be to create happy, confident and fulfilled human beings, who will play a meaningful role in society. This is the main moral purpose of Education. This is the most important way to keep the democratic ideals alive in citizens. Whatever we do is for the sake of happiness. Happiness is the greatest human expression. It can be said that the ultimate aim of all human beings is to achieve happiness in their lives.

Schools in many countries have done this. Across the world, education administrators are realising the need for a happiness or well-being lesson for children. Self-aware, sensitive and emotionally mature children are far more successful owing to their advanced ability to engage in meaningful relationships with their friends, family and society.
