CIRCULAR

Sub: - Anti Kite Flying Campaign.

Flying of kites is a common feature in Delhi as a hobby of youth and generally increases before festivals and national Holidays. Flying of kites sometimes leads to accidents causing harm and injury to humans, animals and birds. It becomes lethal and hazardous because of metal coated string used in flying kites. Often accidents involving kite flying have been reported causing injuries - small, grievous and sometimes fatal. It is a matter of grave concern and therefore, the passion for it among the students should be discouraged by creating awareness about the danger it can pose for people, animals and birds around.

Therefore, all the Heads of Govt., Govt. Aided & Unaided Recognized Schools under Directorate of Education are hereby directed to sensitize students and staff members during the school assembly about the menace of flying of kites.

This issues with prior approval of the Competent Authority.
