ANNOUNCES RESIDENTIAL PROGRAMME ON

"Innovation & Creativity through Knowledge Management"
From August 06-10, 2018 at Ooty

INTRODUCTION

The resurgence of Indian economy, led by globalization and liberalization policy has caused great strides in the knowledge base. To improve growth and productivity, the rapid development and diffusion of information and communication, and their interactive effects on competition call for a paradigm shift in development strategies.

Knowledge management is essentially about creation & Sharing of knowledge and about ubiquitous transfer of knowledge. In general, members of an organization possess different kinds of knowledge. The purpose of Knowledge Management is to facilitate effective transfer of the knowledge to others who have a need for the knowledge in carrying out their responsibilities in the organization. Other activities such as capturing, storing and retrieving knowledge and its meta-data are merely instrumental to the core objective of transferring knowledge to needy members of the organization.

The program has been designed by NPC for the benefit of Indian organizations with a view to catalyzing a re-orientation of thinking on the part of managing knowledge and business professionals to effectively utilize the newly available concepts of management and technology.
