

OFFICE OF THE EXECUTIVE ENGINEER (PLANNING) DR
DELHI JAL BOARD: GOVT. OF NCT OF DELHI
VARUNALAYA PHASE-I, KAROL BAGH, NEW DELHI

No.DJB/EE(Plg)Dr/2021/1046-1063

Dated 09/12/2021

CIRCULAR

Subject: -Implementation of Suo-motto decisions taken by Delhi Jal Board vide Resolution No. 1203 in the 158th Board meeting.

The Board in its 158th meeting held on 26.10.2021 vide Resolution no.1203 has Suo-motto resolved and directed the following:

1. In future all the sewer line manholes should be of precast concrete in place of brick masonry chamber, wherever feasible.
Minimum size of sewer should be 300 mm dia in place of 250 mm dia considering future increase of population in Delhi for all future works and ongoing works. The Board further resolved to accord in-principle approval of variation in cost on these account, if any.
2. While calling the tenders of Sewage/ Water lines related works, period of completion should be less than one year (excluding monsoon season). For provision of more than 1 year, approval of Chairman, Delhi Jal Board would be required. Provision of Incentive and /or Penalty clause should be there in the NIT.
3. Board further fixed accountability of CE/ACE on assessing actual requirement of pipeline dia against proposed dia under SMP-2031 as it has been observed that the recommendations of SMP-2031 are generally found inadequate in the field in many cases.

This is being issued with the approval of the competent authority.
