Subject: Clarification for providing Internet facility to various Divisions/Offices located outside DJB HQ - reg.

EDP Cell provides internet facility through NIC Network at DJB HQ (i.e. at Varunalaya Phase-I, II & B-Building) to run e-Office (FTS), IFMS, etc. For Divisions/Offices located outside DJB HQ, MTNL connection is mandatory to run e-Office & IFMS due to security reasons. Therefore, the concerned DDO/Controlling Officer may apply for MTNL connection as per their requirement. In case, any Division/Office is unable to secure an MTNL connection, they may get the internet services from any other service provider keeping in mind the reasonability of rates. Thereafter, the concerned DDO may request for VPN connection to EDP Cell to run e-Office, IFMS, etc. The due procedure with the application form to apply for an MTNL Triband DG Plan & VPN is already available on the DJB Website under 'For Department' category.
