CIRCULAR

Sub: Inviting articles for March-2023 edition of Quarterly Science Magazine "नई उड़ान"

"नई उड़ान" the quarterly science magazine, is published by the Directorate of Education. Scholarly ideas/articles submitted by students, teachers & other stakeholders and further shortlisted by the editorial team are included for publication in the magazine. The remaining articles are kept for further consideration in forthcoming issues of the magazine.

"नई उड़ान" is a wide platform for Principals, Vice Principals, Teachers, Alumni & Students of DOE to share their work & ideas.

Agricultural development policy for developing countries needs to focus on increasing the productivity of the land under cultivation, with lower costs, higher efficiency of products with little or no damage to both humans and the environment. Organic farming systems have attracted increasing attention over the last one decade because they are perceived to offer some solutions to the problems currently besetting the agricultural sector. Organic farming has the potential to provide benefits in terms of environmental protection, conservation of non-renewable resources and improved food quality. Organic farming is a societal need; it is not only from the consumers perspective but also from a farmer point of view. For the transformation of rural agriculture into a well sustainable agriculture, organic farming might become a panacea which can build a plinth for sustainable agriculture and reimburse conversion cost and maintain the sustainability of soil. The editorial team has decided to come forth with innovative ideas of '**Organic Farming**' in the coming March-2023 edition.
