Dear Sir/Mam

With reference to your email dated 14th August 2023, may I share the following for your kind perusal.

WePlant India's goal is to end Hunger and Malnutrition. This is achieved by creating a public orchard/ Nutrition Forest in villages. Instead of planting saplings to create a nutrition forest, seeds of a variety of fruits are planted by the WePlant team and volunteers. School students actively participate in this unique initiative.

Seeds of various kinds of fruit trees are saved with the help of students from Govt and Private schools through the SeedBank that are set up in each school. Every student in all the classes is guided and inspired to save as many fruit seeds as possible and deposit them in boxes that are kept at the school. The seeds could include Mango, Jamun, Jackfruit, Tamarind, etc.

To facilitate the success of this initiative, team members from WePlant and leaders from InnerWheel clubs will lead SeedBank seminar cum orientation that will be held at the Zonal level. Representatives from schools in each zone will attend this 2 hour seminar to understand SeedBank establishment and nutrition forest establishment.
