INSTRUCTIONAL ORDER

Subject: - Disconnection due to un-authorized use of DJB's potable water - regarding.

It has been observed that a large number of water cooling plants / filling plants for selling of DJB's potable water in jars and glasses in an unauthorized manner and unhygienic conditions are operational in the residential colonies. Though these water connections were initially sanctioned under domestic category but later on got converted into the appropriate category as per applicable water tariff but these cooling plants infact adversely affect the water supply position to other consumers residing in the same colonies. Therefore, it has been decided that:-

1. All ZROs/Addl.ZROs are directed to launch a special drive under their jurisdiction to identify the water cooling plants / filling plants operating in residential areas in a time bound manner.
2. The water connections which were initially sanctioned for domestic use but later on converted into the non-domestic category for cooling plants / filling plants for selling of water in jars and glasses in unauthorized manner and unhygienic conditions be disconnected by first serving a notice informing to the consumers to stop the use of water connections for such commercial activities as above. If activities continue even after informing the consumers in writing, the water connection be disconnected immediately. Appropriate penalties besides imposition of commercial category be also done till such time. The defaulters may also be challaned under Section 10(1) of Delhi Water Board Act, 1998.
3. Not to sanction any water connection in the residential area for the purpose of any unit dealing with packaging of water in any form to safe guard the interest of the domestic consumers.

The above instructions are being issued for information and strict compliance by all concerned.

This issues with the approval of the competent authority, dt. 4.11.10.
