Report of The State Fee Regulatory Committee regulating fee structure of privately managed self-finance institutions offering different courses for the period 2011-12.

The committee met and also heard the views of 74 institutions on various dates. Substantial increase in fee was granted last year to Institutions taking into account the additional burden caused on them for implementing the recommendations of Sixth Pay Commission relating to pay and arrears. Therefore an affidavit was sought from them that they have implemented the recommendations relating to pay and arrears. It was observed that only 53 Institutions have filed affidavits some of which are vague. Most of them have stated that they have not paid arrears.

Further, it has been observed that there has been no improvement in providing information on the finance of the institutions. The deficiencies pointed out last year remained more or less the same.

Considering these aspects, it was decided that for the year 2010-2011 there was no need to fix the fee anew and the last year's fee may continue for the year 2010-2011 except in respect of the following institutions which have applied for fixation of Additional Fee on account of Amortization of cost of Land acquired from DDA in auction on or after 6th March, 2006 and interest on Borrowed Fund from Bank for acquiring such Land and Construction of Building in view of earlier order dated 20th January, 2010 of State Fee Regulatory Committee.

State Fee Regulatory Committee order dated 20th January, 2010 read as follows:-

“Interest payable on loan borrowed from bank for the purpose of acquiring land from DDA in auction and constructing the Building on it on or after 2006, be deemed as Capital Expenditure. The total interest on loan payable during the currency of term loan but excluding the penal interest and other charges if any be amortized over a period of 20 years in equal amount and the cost of land acquired in auction on or after 2006, be the amortized over a period of 30 years. These two amortizations are relevant only for the purpose of calculation of fee structure and not for any other purpose. The above amortization benefit shall be available to the Institute only if such Capital Asset (Land and Building) are acquired on or after 2006 and shown in the Institute's Balance Sheet and not in the Trust/Society managing such Institutes.

After compliance of these guidelines/conditions, the concerned institute may apply giving full details of loan in question and interest on it for consideration of these two items by the Committee and for passing appropriate orders in this regard.”
