Subject: Non renewal of license/registration certificate due to FLRS system failure - reg.

Sir/Madam,

As you are aware, Food Licensing and Registration system (FLRS) is an IT enabled system launched by FSSAI to facilitate FBO's to apply online for license/registration certificate.

2. It has come to the notice that since last quarter of December 2017 technical glitches cropped up in FLRS system. Due to this many food business operators whose licenses were due for renewal could not be renewed on account of FBOs either not being able to pay fee online or inability to upload requisite documents for the purpose due to reasons mainly attributable to technical errors. Resultantly, licenses of many food business operators expired for no fault at their end.

3. Keeping this into account, it has been decided that food business operators whose licenses have not been renewed during the said period will be allowed to continue their food businesses. The functioning of FLRS system is expected to normalize by 15th Feb, 2018. The normalization shall be communicated and window will be provided to all such FBOs whose licenses got expired during this period to renew their application subject to fulfilling eligibility criteria.

4. This issues with the approval of the Competent Authority.

Yours faithfully,

(Garima Singh)

Sub: Renewal of license/registration certificate due to FLRS system failure-reg.

2. In view of the above, it is decided that an extended window on Food Licensing and Registration system (FLRS) will be provided to all such FBOs till 31st March, 2018 without charging any penalty. Further, in case, if any FBO fails to submit their renewal for License/Registration within the extended time period i.e. till 31st March, 2018, such FBOs shall not be able to apply for renewal and will have to submit a fresh application.
