During the course of inspection it is observed that previously school building is comprised of Ground and one upper floor. But now the building is in dilapidated condition and school is now running in a separate block comprised of Ground floor only.

The fire protection systems provided in the building were tested, checked and found functional at the time of inspection.

Keeping in view of the deemed compliance of the minimum standards of fire prevention and fire safety measures as required under DOE circular no. 3298-3398 dated 01.03.2011 it is recommended to renew the Fire Safety Certificate issued vide letter no. F6/DFS/MS/School/2018/2311 for Ground Floor Only.
