                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |  |  |  |  |

N-35 Refuge Area NA 18. NA Total area NA NA Location NA NA 19. Fire control room NA NA Detector system NA NA NA panel NA NA NA Flow Switch Panel NA NA NA PA System Panel NA NA NA Battery backup NA Building Floor Plans NA NA NA Special Fire Protection 20. Systems for Protection of special Risks, if any;

Note:- There is a Multipurpose Hall in basement equipped with sprinklers, fire extinguishers etc. having sufficient exits (Two Doors of 2.40 m each).

Fire protection systems provided in the building were checked and found functional at the time of inspection. Shortcomings issued vide letter no. F6/DFS/MS/School/WZ/2021/528 dated 01/10/2021 found rectified.

In view of the deemed compliance of the minimum standards of fire prevention and fire safety requirements as per D.O.E. Circular no. 262-362 dated 17/05/2005, issued Certificate Safety Fire of renewal F6/DFS/MS/School/2017/WZ/1284 Dated 28/08/2017 is recommended.

Accordingly DFA is prepared for approval & signature please.

Aman Kumar Laihar ADO (JWP)
