On 24TH of JUNE 2013 at 5:00 P.M., the cases of **THIRTY FIVE (35) Life Convicts** were taken up by the **Sentence Reviewing Board** for recommending premature release on merits. Such premature releases are subject to the approval of His Excellency, the Lieutenant Governor, Govt. of National Capital Territory of Delhi. Guidelines issued by the Government of NCT of Delhi vide Order No.F.18/5/94/HOME (G)/3825 dated 16.07.2004 and other related records were taken into consideration. Cases were discussed in the light of parameters like conduct of the prisoner during confinement in jail and parole/furlough, his/her age, the circumstances under which the crime was committed, gravity of crime, his/her antecedents, prospects of rehabilitation, family responsibilities etc. Recommendations of Jail Superintendent, Probation Officer and Police Authorities were also taken into account while reviewing each case for premature release.

The fact was placed before the Board that conduct of life convict during last one year only was to be taken into account while considering premature release of convict in consonance of directions passed by the Hon'ble Supreme Court of India.

The facts that the Police recommended only four cases out of thirty five cases and that the Police reports were found vague and not specifying any misconduct noticed after commission of crime were brought to the knowledge of the Board. The Police reports are mainly based on their apprehension and stereotyped objections and grossly undermine the SRB Guidelines which have been drafted and issued by GNCT of Delhi on the recommendations & approval of NHRC and Hon'ble Lt. Governor of NCT of Delhi states as under:-

The para no.5 (iii) of SRB Guidelines 2004 specifically emphasizes "***While considering the case of premature release of a particular prisoner, the Board shall keep in view the general principles of amnesty / remission of the sentence as laid down by the Government or by Courts as also the earlier precedents in the matter. The paramount consideration before the Sentence Review Board being the welfare of the prisoner and the society at large. The Board shall not ordinarily decline a premature release of prisoner merely on the ground that the police have not recommended his release. The Board shall take into account the circumstances in which the offence was committed by the prisoner and whether he has the propensity and is likely to commit similar or other offence again.***"
